About The Nature Conservancy Hong Kong (TNC)

The Nature Conservancy (TNC) is a global conservation organization dedicated to conserving the lands and waters on which all life depends. Guided by science, we create innovative, on-the-ground solutions to our world's toughest challenges so that nature and people can thrive together. We are tackling climate change, conserving lands, waters and oceans at an unprecedented scale, providing food and water sustainably and helping make cities more resilient. The Nature Conservancy is working to make a lasting difference around the world in 83 countries and territories (39 by direct conservation impact and 44 through partners) through a collaborative approach that engages local communities, governments, the private sector, and other partners. TNC has been in Asia Pacific for over 30 years with projects in Australia, mainland China, Hong Kong, India, Indonesia, Mongolia, New Zealand, and the Pacific Islands. In 2019, TNC was awarded the Lui Che Woo Prize for Sustainable Development. To learn more, please visit:
